## SKYDIVING INFORMATION SHEET

*At Skydive Aurora, we will provide you with all that you need to enable you to experience the skydive of your dreams. Whether the experience is for you alone, a group of friends, a corporate event or as a gift, Skydive Aurora will tailor the package to suit your needs.*

*Imagination is your only limitation...*

### WHAT IS A TANDEM SKYDIVE?

A Tandem Skydive is a high altitude jump where you are securely attached to your tandem instructor. Your instructor is responsible for controlling the freefall part of the skydive as well as the flight under the parachute, leaving you free to enjoy the thrill of the experience.

### WHAT DOES THE COURSE INVOLVE?

The course is designed to be completed within half a day where possible and consists of:

#### The Briefing:

Your instructor will take you through a 30 minute briefing during which you will learn about the skydive, what you will need to do and the equipment that you will be using.

#### The Ride to Altitude:

The aircraft will take you to a minimum of 10,000ft where you will exit securely harnessed to your instructor.

#### Freefall:

You will experience freefall at around 120mph for approx. 35-45 seconds. Your instructor will deploy your tandem parachute at around 5,000ft.

#### The Parachute Ride:

The parachute is specifically designed for two people and your instructor will control it throughout. You will have several minutes to enjoy the flight as your instructor guides it back to the landing area.

#### The Landing:

Landings are usually soft. Following the instructions you were given during your briefing will ensure a comfortable landing – which is generally accomplished without even falling over.

We can arrange a freefall cameraman to record the entire experience. You will receive a fully edited DVD that will provide a lasting reminder of a unique experience.

### IS IT SAFE?

The sport is naturally extremely safety-conscious and all parachute systems come with a back up reserve canopy in the event of a main parachute fault, together with a computer operated device that will automatically deploy the reserve canopy even if the correct emergency drills are not performed. All parachute jumps with Skydive Aurora are conducted in accordance with safety limitations imposed by the Civil Aviation Authority and the BPA.

### ARE THERE ANY RESTRICTIONS?

The maximum weight restriction is 15stone 7lbs, the minimum age is 16 years (parental consent required for under 18's), and a medical form signed and stamped by your doctor is required if you are 40 years of age or over.

### WHAT DOES IT COST?

Prices per person for 2008:

£215 – 1 person

£190 per person – 3 people booking together

£185 per person – 4 people booking together

£180 per person – 5-9 people booking together
